

**Number of Chronic Hospital Beds and Patient Days
and Percent Occupancy, by Facility: Maryland, 2006**

Jurisdiction/Facility	Number of Beds	Number of Days	Occupancy (%)
Baltimore City			
<i>James Lawrence Kernan Hospital</i> ¹	40	14,527	99.5%
<i>Johns Hopkins Bayview Medical Center</i> ²	69	23,695	94.1%
<i>Levindale Hebrew Geriatric Center and Hospital</i>	100	39,349	107.8%
<i>University Specialty Hospital</i>	180	49,663	75.6%
Prince George's County			
<i>Gladys Spellman Specialty Hospital and Nursing Center</i>	52	16,298	85.9%
SUBTOTAL: Private Chronic Hospitals	441	143,532	89.2%
Washington County			
<i>Western Maryland Hospital Center</i> ³	60	10,585	48.3%
Wicomico County			
<i>Deer's Head Hospital Center</i> ⁴	66	5,110	21.2%
SUBTOTAL: State-operated Chronic Hospitals ⁵	126	15,695	34.1%
STATEWIDE TOTAL ⁶	567	159,227	76.9%

Sources: Maryland Health Care Commission. The number of licensed chronic hospital beds maintained in the Commission's inventory is based on the Commission's Certificate of Need files and licensing information provided by the Office of Health Care Quality. The number of FY 2006 patient days for the private chronic hospitals is obtained from the Financial Data Base, as reported by private chronic hospitals to the Health Services Cost Review Commission (HSCRC), as of July 24, 2007. The number of FY 2006 patient days for the two state-operated chronic hospitals is obtained from the Hospital Management Information System (HMIS), as maintained by the Maryland Department of Health and Mental Hygiene.

Notes: The number of beds reflects the number of licensed chronic hospital beds at each facility as of June 30, 2006 (the end of the 2006 fiscal year reporting period). Occupancy is calculated based on licensed beds. For the one facility with over 100 percent chronic hospital occupancy, patient days reflect that chronic hospital patients may be placed in other types of licensed beds within its facility.

¹ Kernan Hospital's 40 chronic hospital beds include 16 dually licensed chronic/rehabilitation beds.

² Johns Hopkins Bayview Medical Center's 23,695 patient days is the combined number of patient days for the separately licensed 69 chronic hospital beds and six comprehensive inpatient rehabilitation (CIR) beds. Chronic hospital occupancy is calculated based on the 69 licensed chronic hospital beds.

³ Western Maryland Hospital Center's occupancy, based on its 34 *budgeted* chronic hospital beds, would be 85.3 percent.

⁴ Deer's Head Center's chronic hospital occupancy, based on its 16 *budgeted* chronic hospital beds, would be 87.5 percent.

⁵ The occupancy for the two State-operated chronic hospitals, based on the total 50 *budgeted* chronic hospital beds, would be 86 percent.

⁶ The statewide chronic hospital occupancy based on the 441 *licensed* beds at the five *private* facilities plus the 50 *budgeted* beds at the two *state-operated* facilities would be 88.9 percent.
